# Inaugural Address

## By Mayor JAMES B. YOUNG

*Gentlemen of the City Council:*

We are once more assembled for the purpose of entering upon the work of a new year. The year of 1918 will go down in history as one in which there have been many changes. Our country having entered into the conflict to assist in making this world a fitting place in which to live and where true Democracy may prevail, we may well be proud of the results that have been attained and the part that we, as Americans, have taken in affairs to reach the desired results. Rochester has great reason to be proud of its part in this work. Three hundred and forty-seven of our boys have entered the service and have done their part in one way or another. Some of them are buried in the fields of France. While we regret their loss yet we should ever keep their memory green in our hearts. I would suggest that when the boys come home or when there are enough home to make it an object that our citizens should do something to celebrate their home-coming and to show our appreciation of their efforts for the cause of Liberty and right.

During the past year it has been impossible to do all that was planned at the first of the year, but there has been much done that does not make a showing until the reports are printed.

## FINANCE.

The finances of the city are in excellent condition. At the commencement of the year, there was outstanding $74,683.00 in notes of the city. Of this amount $22,680.00 was exchanged for Bonds of the City, and the remainder $52,000.00 in Bonds was sold to Harris Forbes & Co. of Boston and the note holders were paid their money.

There has been purchased $10,000.00 of Water Bonds and the $14,000.00 of Municipal Bonds that was held by the Water Department and retired in July has been re-invested, in Bonds paying approximately four and one-half per cent. City Hall Bonds amounting to $5,000.00 has been paid and also a note for $2,000.00 due from the Highway Department. This makes a total of $31,000.00 of the City's indebtedness that has been taken care of this year. Practically all departments have kept within their appropriation this year.

The following is a statement of the present financial condition:

### FINANCIAL STATEMENT, JAN. 1, 1918.

DEBIT.

| | |
|---|---|
| Municipal bonds, | $196,000 00 |
| City hall bonds, | 39,000 00 |
| Checks out unpaid, | 1,986 47 |
| Amount due water works on account, | 6,312 97 |
| | $243,299 44 |

CREDIT.

| | |
|---|---|
| B. & M. stock, | $ 800 00 |
| Due on sundry accounts, | 635 04 |

| | |
|---|---|
| Due on collector's list, 1918, | 4,868 56 |
| Cash in hands of treasurer, | 27,345 10 |
| | $ 33,648 70 |
| Net indebtedness, exclusive of water bonds, | $209,648 49 |
| Water bonds outstanding, | 150,000 00 |

As a sinking fund there is deposited to the credit of water bonds outstanding, $14,000.00.

## POLICE.

The Police Department during the year has performed its part in a manner that I believe meets with the approval of all who believe in law and order. Owing to the fact that the Prohibition law has gone into effect, there has been fewer arrests for drunkenness and as a result there has been less revenue earned. But we believe that our citizens had rather pay more taxes for the support of the department than to have our streets crowded with drunks and rowdies.

## ROADS, BRIDGES AND DRAINS.

In this department there has not been so much work done as was planned at the commencement of the year owing to the scarcity of help. Only necessary repairs have been made. There has been some new equipment added which will make the work of the department much easier, and it can be taken care of more economically. At the first of the year I recommended using oil on our streets instead of sprinkling, but the price of oil made this plan not practical, so that the old system was continued. The motor truck owned by the

department has shown that it is a practical thing to have in the department, making, as it does, three and four trips to one for the teams. I would recommend that we dispose of at least two teams and invest in another truck. By so doing I believe that better results can be obtained, and that it will not cost so much to do the work as at present. The bridge on Bridge Street is in a condition that will demand that something be done to it in the Spring. I would recommend that if the steel, that would enter into the construction, can be obtained at a reasonable price, that this bridge be made of cement and if this is done it means that very few repairs will be needed for a number of years. Summer, North Main and Portland Streets are in very bad condition and something should be done to improve them. Whitehall Swamp road should receive attention as very little has been done there for a long time and conditions are bad. I would recommend that this road receive attention and that a rock base be put in and the road be raised and made in such a manner that the water will readily drain from it.

## SURFACE SEWERS.

The sewer on Winter Street has been waiting for two years and should be laid this year as conditions are very bad in that section. The sewer on North Main Street should be relaid as it is at the present time, it does not answer the purpose for which it was intended. The sewer on Lincoln Street should be attended to and made practical. All of these recommendations are made with the proviso that labor and material can be obtained at a price that will warrant their being done.

## SHADE TREES, PARKS AND COMMONS.

Rochester has a great many small parks within its limit which require considerable attention and the amount of money appropriated is hardly adequate to their needs. During the last year Mr. E. F. Twombly and Mrs. Dunlap, heirs of the late J. F. Twombly, have given to the city another park at the upper part of the city. This park contains about four acres of land and the main object for which it was given was that the boys of Rochester might have a suitable place in which to go in bathing. Some work will be necessary at this place to make it fit for use.

## WATER WORKS AND SEWERS.

Very little needs be said in regard to this department as it is the only self-supporting department we have. Financially, it pays a little better than $6,000 per year, above expenses. The time will come when the people of Rochester will appreciate to a greater extent, than at the present, the wisdom of those who advocated its purchase.

## FIRE DEPARTMENT.

The Fire department this year has shown its usual efficiency. During the year the permanent men with the motor truck have attended to nearly all the calls and by so doing much wear and tear on the remainder of the apparatus has been saved. Seven hundred feet of new hose has been purchased. The fire stations throughout the city are in need of considerable repairs, especially Cocheco and Torrent Houses.

I believe that there should be a small amount appropriated each year for this purpose.

## SCHOOLS.

The need of good schools in every city and town is something that is very important, and I believe that the citizens of Rochester appreciate this fact as much as those of any other city or town in the State and are willing to pay for the same if they can see results. I have heard it expressed quite frequently that for the amount of money expended we are not getting the results that we should expect. Whether this is true or not, I am not prepared to say, but I do believe that when a scholar graduates from our schools, He or She should be able to show proficiency in the studies that they have undertaken and I believe that we should demand thoroughness in this department as well as in any other in the city. For your guidance I would offer the following figures as given in the reports of other cities in New Hampshire as to the amount appropriated for the support of schools. Also the number of pupils, population, and the amount per pupil in 1917:

| | No. Pupils | Population | Appropriation | Per Pupil |
|---|---|---|---|---|
| Keene, | 2,049 | 11,000 | $ 69,928.00 | $ 34.13 |
| Somersworth, | 662 | 6,704 | 23,757.77 | 35.90 |
| Laconia, | | 11,500 | 42,851.95 | 43.04 |
| Concord, | 2,000 | 22,000 | 124,355.82 | 62.18 |
| Franklin, | 741 | 6,132 | 30,625.00 | 41.33 |
| Portsmouth, | 2,243 | 11,500 | 68,500.00 | 30.55 |
| Berlin, | 1,400 | 15,000 | 50,000.00 | 35.78 |
| Rochester, | 1,302 | 10,000 | 40,000.00 | 30.64 |

These figures are for the amount appropriated by

the cities and does not include the extra received from the Literary Fund, Dog Tax and Tuitions. You will observe by these figures that Rochester is the lowest per pupil with the exception of Portsmouth. I wish to call also, your attention to the different amounts paid to your teachers at the present time and the amounts that the finance committee of the schools wish to pay this year.

| | Present Schedule | Regular Schedule | Proposed Schedule |
|---|---|---|---|
| First year, | $450 | $450 | $550 |
| Second year, | 450 | 475 | 550 |
| Third year, | 460 | 500 | 600 |
| Fourth year, | 480 | 525 | 625 |
| Fifth year, max., | 525 | 550 | 650 |
| Maximum, | 550 | 550 | 650 |
| Principals, | 600 | 660 | 750 |

The present schedule is due to a vote that in passing from an old to a new schedule (the regular schedule above) no teacher should receive an advance of more than $50. Fifty dollars added to the various salaries brought them to the figures noted in the present schedule above.

## PUBLIC LIBRARY.

This institution is one that is of particular value to our citizens and is worthy of our best support. On the shelves of the library can be found books dealing with all subjects. Our school children, desiring to obtain light upon any matter connected with their studies, can do so whenever they wish. As I mentioned in my Inaugural last year, the library appropriation has never been exceeded but once in the his-

tory of the institution. This is an example that other departments might well copy after. I believe that we should make an addition to the appropriation this year.

## CONCLUSION.

In conclusion I wish to return my thanks to all officials of the city with whom I have been connected. Our relations have been very harmonious and I assure you I appreciate the many kindnesses shown me by all during the year just past. With best wishes for a Happy and Prosperous New Year let us all firmly determine to do our part towards making this year a success in every way possible.

That the sum of twenty-five hundred dollars be raised by taxation within the sprinkling precinct in accordance with the act of the Legislature creating said precinct, and the assessors are directed to assess that amount.

Passed January 21, 1919.

## AMENDMENT TO ORDINANCE, RELATING TO SIDEWALK CONSTRUCTION.

*Be it ordained by the City Council of the City of Rochester as follows:*

Amend Section 5, Page 38, of Chapter XI of the City Ordinances, relating to the construction of sidewalks, by adding thereto and immediately after the word based, in the thirteenth line as follows:

"Any property owner requesting Sidewalk Construction other than earth or cinders, shall upon the proper survey, pay to the City Clerk the amount as determined in accordance with the provisions of said paragraph. So that said paragraph, as amended, shall read as follows:

"The Mayor and City Council, upon petition, may

construct sidewalks in said city with or without edgestones and covered with any appropriate material, and for that purpose may widen and straighten any highway as in other cases, except that the notice of proceeding shall state, that the construction of the sidewalk is contemplated. In constructing such sidewalks the City Council may assess upon the owners of the property abutting on such street, a portion not exceeding one-half of the expense of constructing the same, and the amount so assessed upon such owners shall be reasonable, and proportional to the benefits accruing to the land upon which such assessment is based.

Any property owner requesting sidewalk construction other than cinders or earth, shall upon the proper survey pay to the City Clerk the amount as determined in accordance with the provisions of said paragraph.

All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed January 23, 1918.

## AMENDMENT TO ORDINANCE, RELATING TO THE SALARY OF CITY CLERK.

*Be it ordained by the City Council of the City of Rochester, as follows:*

That we amend Section 1 of Chapter XXIV, by striking out the whole of paragraphs 3 and 4, and substituting in place thereof a new paragraph to read as follows:

"The City Clerk, twelve hundred dollars, and an assistant in the clerk's office to be engaged by the

clerk on the following schedule: said assistant to be paid four hundred dollars the first year, five hundred dollars the second year and six hundred dollars the third year. Six hundred dollars to be the maximum salary for this position. When a new assistant is engaged, the same schedule shall be followed. The City Clerk and Assistant to be paid monthly from the Salary Department."

All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect January 1, 1918.

Passed February 12, 1918.

## AMENDMENT TO ORDINANCE, RELATING TO THE PAY OF LABORERS.

*Be it ordained by the City Council of the City of Rochester, as follows:*

Amend paragraph 6 on page 62 of Section 1 of Chapter XXIV of the City Ordinances, relating to laborers, by striking out the words "twenty-five" in the second and fifth lines thereof, and inserting in place thereof the words fifty, so that said paragraph as amended shall read as follows: "All day laborers of the city receiving a total amount of less than two dollars and fifty cents per day for all services of every kind rendered for the city, shall hereafter be paid the sum of two dollars and fifty cents per day as full compensation for all services rendered. Nine hours, exclusive of the time in going to and from work, shall constitute a day's work. Preference to be given to residents of the city."

All ordinances and parts of ordinances incon-

sistent with this ordinance are hereby repealed and this ordinance shall take effect upon its passage.

Passed February 12, 1918.

Be it known that the City of Rochester, in the County of Strafford and State of New Hampshire, hereby acknowledges itself indebted to ..... in the sum of DOLLARS and promises to pay the said sum to the said ..... on the first day of July, ..... at the Treasurer's office in the City of Rochester, with interest at the rate of three and one-half per centum per annum, payable semi-annually on the first days of January and July in each year until the maturity thereof.

This Bond is issued by the City of Rochester, N. H., by virtue and in pursuance of the Municipal Bonds Act, 1917, and by virtue of a resolution passed by the City Council May 1st, 1917, and approved by the Mayor.

Sealed with the City Seal, signed by the Mayor and countersigned by the Treasurer, this ..... A. D.

Dated this first day of July, 1917.

Countersigned by

..... Mayor.

..... City Treasurer.

And

WHEREAS attached to said bonds were coupons bearing the facsimile signature of the Mayor; and

WHEREAS said bonds bore on back thereof a statement to be signed by the Treasurer, to wit:

Rochester, N. H., 1917.

The within bond has this day been duly registered on the books of the City of Rochester, in the name of .....

..... Treasurer.

and spaces for recording transfers; and

WHEREAS it was provided by a resolution adopted by the City Council October 2, 1917, "that the rate of three and one-half (3½) per centum upon the bonds voted by the City Council May 1, 1917, to be thereafter issued be changed to four (4) per centum, that the rate of four (4) per centum thereon be thereafter assessed and collected by said city and paid to the holders of said bonds according to the conditions thereof," and

WHEREAS of said $210,000 serial bonds, $158,000 bonds in the form above set forth in denominations of $100, $200, $500 and $1,000 have been issued, said bonds maturing $14,000 in each of the years 1918 to 1923 inclusive; $13,900 in 1924; $11,000 in 1925; $10,000 in 1926; $8,900 in 1927; $5,500 in 1928; none in 1929; $12,800 in 1930; $5,600 in 1931; $6,300 in 1932; and

WHEREAS said $158,000 bonds have been duly stamped as follows:

"This issue of Bonds bear 4% interest. Coupons are computed 3½%, ½ of 1% int. will be paid on the

first days of Jan. and July of each year by presenting this bond at the City Clerk's Office."
and

WHEREAS the remaining $52,000 of said $210,000 bonds have been duly sold to Harris, Forbes & Company, Inc. of Boston, Mass., but have not yet been issued as a question has been raised as to the sufficiency of the form of the bond already prepared. And it is deemed expedient to reprint said bonds in approved form.

NOW, THEREFORE,

*Resolved:* That said entire issue of bonds be reprinted, bearing interest at the rate of four (4) per centum per annum, payable semi-annually, in coupon form, but registerable as to principal, dated with the same date and with the same aggregate maturities each year as already provided in said resolution of May 1, 1917, signed by the Mayor and countersigned by the City Treasurer and the City Clerk, with coupons annexed bearing the facsimile signature of the Treasurer, other particulars as to the form and issuance of said bonds not inconsistent herewith, or with legal requirements, to be determined by the Finance Committee and the City Treasurer; further

*Resolved:* That of said issue $158,000 bonds be issued only in exchange for the bonds already issued, each bond so given in exchange representing an equivalent obligation as to both principal and interest as the bond or bonds surrendered. Each bond, together with all unmatured coupons thereon so surrendered in exchange, shall be cancelled by the City Treasurer in the presence of the Finance Committee and a record of the same be made thereof in the City Register, signed by

the City Clerk, City Treasurer, and by said Finance Committee showing the numbers, amounts and maturities of the bonds so cancelled with their coupons attached. Said bonds when so cancelled shall be kept by the City Clerk; further

*Resolved:* That the sale of the unissued balance of $52,000 of said bonds to Harris, Forbes & Company, Inc., be and the same is hereby ratified, confirmed and approved, said bonds maturing, $100 in 1924; $3,000 in 1925; $4,000 in 1926; $5,100 in 1927; $8,500 in 1928; $14,000 in 1929; $1,200 in 1930; $8,400 in 1931 and $7,700 in 1932, and that bonds to said amount as already prepared, with the coupons annexed thereto, be "cancelled as never issued" and bonds in the new form above designated be issued to Harris, Forbes & Company, Inc., in substitution for said original bonds; further

*Resolved:* That in addition to the amount to be raised by said resolution of May 1, 1917, from the tax levy of 1918 for the payment of the interest on said bonds and the principal of the $14,000 falling due in 1918, such further sums shall be raised from said tax levy as may be necessary in addition to the proceeds of said bonds to pay the principal and interest of all said demand notes and the cost of preparing and printing said bonds; further

*Resolved:* That said resolutions of May 1 and October 2, 1917, in all respects not inconsistent herewith, and all acts done or performed under authority of said resolutions be and the same are hereby ratified, confirmed and approved.

Approved, James B. Young, Mayor.

Report of

# Superintendent of Water Works

## For the Year Ending December 31, 1918

*To the Committee on Water Works:*

GENTLEMEN:—The twenty-seventh annual report of this department is herewith submitted.

Source of supply during the year: Round Pond, Jan. 1 to Jan. 8 and July 16th to Dec. 31st; Reservoir, Jan. 8th to July 16th.

The supply has been very good from both Reservoir and Round Pond and the State Chemist sends favorable reports from both sources of supply.

The winter of '17 and '18 will long be remembered by all Water Works men, and while we had our share of trouble it was nothing to what they had South of this section and I wish to extend thanks to all of the customers who were so patient during that trying time.

We were unable to do but very little construction this year owing to the high prices of material, labor, etc.

We have extended the main on Pine Street, a distance of 112 feet to accommodate the new houses built the past year.

No new hydrants have been installed this year.

| | |
|---|---|
| Hydrants repaired | 5 |
| Hydrants to date | 186 |
| New meters installed | 36 |

73 per cent. of all services are now metered.

The following table gives size and make and number of meters in use in the city:

| Make | 5/8″ | 3/4″ | 1″ | 1½″ | 2″ | 3″ | 4″ | 6″ | 8″ |
|---|---|---|---|---|---|---|---|---|---|
| Gamon | 12 | | | | | | | | |

| | |
|---|---|
| Owned by the city, | 968 |
| Owned by customers | 267 |
| | 1,235 |

New services, pipe laid, etc., during the year:

| | |
|---|---|
| 1-in. galvanized W. I. pipe laid on Pine Street Extension | 112 ft. |
| Total laid to date, 33 miles | 2,161 ft. |

| | |
|---|---|
| New services | 8 |
| Services relaid | 51 |
| Services to date | 1,668 |
| Joint leaks in main pipe | 4 |
| Leaks in service pipe | 7 |

Number of feet of service pipe laid during the year:

| | |
|---|---|
| 3/4-inch | 2,447 ft. 10 in. |
| 1-inch | 716 ft. 7 in. |

An inventory of material and tools in this department is on file in the City Clerk's Office.

To the Water Committee, Mayor and Honorable Council, I wish to extend my thanks for the assistance and support accorded me during the past year.

Respectfully submitted

J. FRANK ELLIS,

*Superintendent.*

Report of

# Superintendent of Sewers

## For the Year Ending December 31, 1918

*To the Committee on Sewers:*

GENTLEMEN:—The annual report of the Sewer Department is herewith submitted.

| | |
|---|---|
| Number of permits issued to do plumbing | 30 |
| Connections put in during the year | 12 |
| Connections discontinued | 0 |
| Connections to date | 1,339 |
| Sewer connections cleaned during the year | 31 |

We have cleaned main sewer of various obstructions at Walnut Street, Springfield Court, and at Summer Street, East Rochester. Also catch basin branch at Gonic Square.

It was considered useless to lay main sewer pipe as the prices were too high on everything in that line the past year.

An inventory of material and tools in this department is on file in the City Clerk's Office.

Respectfully submitted

J. FRANK ELLIS,

*Superintendent.*

Report of

# Chief Engineer of Fire Department

*To the Honorable Mayor and City Council:*

In rendering my report of the Fire Department for the year ending December 31, 1918, I would state that we have been very fortunate in not having many serious fires, but we may not always be as fortunate, therefore, it stands us in hand to be prepared for whatever emergency may arise by up-to-date equipment.

There has been 16 bell alarms, 70 still alarms, mostly chimney fires, 22 brush and forest fires, 2 bell alarms, 7 still alarms at East Rochester; 2 bell alarms, 10 still alarms at Gonic; making a total of 129 alarms for the year.

The amount of property involved is as follows:

| | |
|---|---|
| Value of buildings | $95,100 00 |
| Insurance on same | 92,100 00 |
| Losses paid | 9,505 00 |
| Value of contents, | 16,425 00 |
| Insurance on same | 13,450 00 |
| Losses paid | 4,659 67 |

The amount of property involved in fires from two to four miles out side the hydrant services is as follows:

| | |
|---|---|
| Value of buildings | $5,800 00 |
| Insurance on same | 2,135 00 |
| Losses paid | 1,347 85 |
| Value of contents | 5,550 00 |
| Insurance on same | 3,000 00 |
| Losses paid | 3,000 00 |

Locations of these fires: One in Meaderboro, one near Flat Rock Bridge, one on the Salmon Falls Road, two near Pickering's Crossing, one on the Milton Road. We also had two dangerous chimney fires on the Salmon Falls Road, the men and the combination chemicals did good services in saving property at all these fires.

The motor truck has responded to 123 alarms this year, 11 of these fires have been where some parts of the building was afire and has been put out by the men and the chemicals and has saved water damages.

I would recommend that the city purchase a suitable motor truck to take the place of the hose wagon at Cocheco station, for this wagon weighs one ton, and the number of men will average from three to five to start out with this wagon, and by the time the other men arrive the first lot of men is exhausted and by the time they all arrive at the fire they are not in any condition to start in to fight a bad fire. I think this matter should have your consideration.

In behalf of the Fire Department I will take the opportunity to extend our sincere thanks to all those who have been so kind and have given to the Department, to show that they appreciate their good work.

In behalf of the Board of Engineers I will take this opportunity to extend our sincere thanks to all the officers and members of the Fire Department for the

promptness with which they have discharged their duties during the past year.

We would also thank the Mayor and members of the Fire Committee for their good work for improvement in the Department.

In conclusion I wish to thank the Mayor and members of the City Council for what they have done to assist the Department during the year.

Respectfully submitted

JOHN F. NUTE,

*Chief Engineer of the Fire Department.*

# Report of City Solicitor

*To the Honorable Mayor and City Council of the City of Rochester:*

GENTLEMEN:—Your department heads and committees have so carefully handled the business affairs of their several departments during the past year that the city has been practically free from controversies and litigation.

The one suit pending at the beginning of the year, the appeal of Victor E. Page for the award of damages in the straightening of the Farmington Road, has been dismissed without costs to the city.

Only one other suit has been brought against the city during the year, that in favor of S. D. Felker at the February Term of the Superior Court, for damages to land located at Pickering's Crossing from negligently allowing highway drains and culverts to fill up and discharge the water collected in them upon the field land of Mr. Felker. By the exercise of the tact and judgment usually displayed by the legal committee and the council I feel confident this case can be satisfactorily disposed of without further proceedings in Court.

Respectfully submitted,

ELMER J. SMART,

*City Solicitor.*

December 28, 1918.

# Report of Library Trustees

*To the Honorable Mayor and City Council of the City of Rochester:*

GENTLEMEN:—I have the honor to present the twenty-fifth annual report of the trustees of the Rochester Public Library, also the librarian's and treasurer's report for the year ending December 31, 1918.

In submitting this annual report of the trustees, memory goes back to the days of the founding of the library, twenty-five years ago, and to the Board of Trustees, who gave freely of their time to lay well the foundations of an institution that has been intellectually, morally and socially a benefit to our city.

Of the original members of the Board of Trustees, four, William W. Allen, James Farrington, M. D., J. Edgar McDuffee, and Josiah H. Whittier, have closed the book of life, but their works remain to bless and benefit our city.

The needs of the library are many to keep it up to the standard it has attained, the increased cost of books and periodicals and other materials and the running expenses of the library are such that your trustees have not been able to meet the demands of the public as they would like to do, as, it has always been the purpose of the trustees to keep within the appropriation, which was $4,200. The cost of maintaining

the branch library at Gonic, $89.22, comes out of the appropriation. In order to meet the demands of the library the trustees ask for an appropriation of not less than $4,500.

The trustees wish to acknowledge the bequest of Olive M. Woodward of $100.

The trustees wish to express their appreciation of the work done by the librarian, Lillian E. Parshley, during the twenty-five years of her service. The library is a monument to her faithfulness in her work and the city is to be congratulated on having a librarian who makes the library a part of her life.

The trustees also wish to express their appreciation of the courteous and efficient work which the librarian and her assistants have rendered the public during the year.

For the trustees,

JOHN YOUNG,

*Secretary.*

# Report of Librarian

*To the Board of Trustees of the Rochester Public Library:*

GENTLEMEN:—I herewith present the twenty-fifth annual report for the year ending December 31, 1918.

The question, as we again reach the end of a year of library history, is how little may we say and yet convey to those interested the pertinent and important facts, which should be made a matter of record. The most concise method of presenting the necessary facts, not only of this year's work but a general summary of the work for twenty-five years seems to be by the series of tables which are appended to this report and to which I hereby call your attention.

## THE YEAR'S GROWTH

During the present year, 11 volumes have been destroyed or discarded; 390 volumes have been purchased at an expense of $531.57 an average, as you will note, of $1.36 per volume; 54 volumes of magazines have been bound, after serving their time on the reading tables and in circulation; and 354 volumes have been received as gifts. This makes a net gain of 787 and the estimated number of volumes in the library, 20,063.

## BOOKS ADDED

In the purchase of books, in addition to the best

of the war books, a few good novels and the most cheerful and entertaining stories to be found, as much attention as the finances would allow has been paid to the needs of school students, business men and women, young farmers or war gardeners and to home makers.

## THE YEAR'S WORK

The deplorable decrease in the circulation is a source of much regret until one recalls the general rush for the last word from across the water, the reams of printed matter which have been literally devoured, lest some vital thing escape the attention and beside which the most powerful and stirring imaginative tale has seemed tame. When one remembers the busy hands of the women, the hours spent in knitting, sewing and all kinds of war work, the unaccustomed duties and cares of the period, one hardly sees how even 56,685 books could have been read or studied during the year. The decrease of 5,709 is not to be wondered at.

The agencies have each contributed their quota to the circulation of the year. Mr. Marsh reports 2,050 books given out at Gonic, Mrs. Elliott reports the circulation at East Rochester as 1,672, and the little agency established and cared for by Miss Bertha Allen at Walnut Grove has given out 407 books. The agencies as well as the main library were closed fourteen days in October during the epidemic of influenza.

This, as well as the shortening of the library day and the closing Sunday afternoon, have each had its effect on the number of readers for the year. The number as counted was 14,289. 5,751 less than reported last year.

4,292 of this decrease was in the children's room,

the number of young readers during the year was 7,894. The number of books given out from this room was 15,893. Scarcity of new books and magazines and lack of interest in the stories which have stood the test of time are two of the problems which the assistant has to face.

Three of our young people have come splendidly to the rescue in their donations of books to this department. Roland C. Foss gave 52 volumes, Richard McDuffee, 16 and Alfred Young, 11. All books which they had read and enjoyed and gladly passed on to the young readers of Rochester.

In addition to the large amount of routine work, guidance and assistance in reference work, clerical work, recopying of card catalogue and shelf list, mounting and arranging of pictures, preparation of scrap books, filing and binding pamphlets and clippings, an inventory of the entire library has been taken by accessions.

There has been no change in the policy of the library but an extreme effort has been made to keep the library in the minds of the people and to extend in every way possible a knowledge of its contents and usefulness.

## WAR TIME SERVICE

During this war time period the library has gladly done what it could. It has brought to the attention of visitors in various ways all government requests and information; has collected about 800 volumes for the camp libraries and sent them on to camps or to France as ordered or directly to the boys by messenger, whenever an opportunity presented itself. It has compiled brief records of the Rochester boys in service for tem-

porary use, pending the turning over to the library the records of the local historian; has preserved all lists and valuable material relating to Rochester's part in the war; has gladly opened its doors as a meeting place for war committees or public gatherings, and for a few months, one of the rooms was used as headquarters of the Home Service department of the Red Cross. It has obtained, bound and put into circulation, government, school and college pamphlets as aids to food conservation.

## GIFTS

The library has received in addition to the generous contribution of books, curios, pictures, stereoscopic views, foreign post cards, and minerals, a gift of $100 from the late Olive Maria Woodward to add to our small amount of invested funds. We sincerely wish that some of the generous citizens of Rochester would see to it, that all the available money for the benefit of mankind does not go out of Rochester, that some of it be kept at home to assist in keeping up the morale of our own boys and girls. The public library could use any amount to good advantage.

---

The late Mr. J. Edgar McDuffee, secretary of the Board of Trustees in 1894, said in his summing up of the first year's work, that "two things had been made apparent by the instant rush of patronage, first—that there had been a crying need of such an institution in Rochester, the other that the amount of money devoted to the enterprise was not adequate." Later Mr. McDuffee said, "it would not be easy to feed the people of Rochester with the amount of money allowed for the support of the library" neither "would it be easy to

provide good streets and sidewalks for the same price, yet with this amount we strive to furnish mental sustenance and to smooth to the feet the path of knowledge."

As we trace the history of the library through the twenty-five years and note the small number of books added and the large circulation, this fact is made evident again and again, the inadequacy of the supply to the demand. However from the very modest but careful beginnings of 1893 has grown the public library of today, an institution made possible by the people for the people, and we trust a very important factor in the civic life of Rochester, second only to the public schools. supplementing and making even these more valuable.

At this close of the twenty-fifth year, our mood should not be one of retrospection, the library is still young and has much to accomplish, the past must speak for itself, and the possibilities of the future are unending.

It is not only my privilege but my duty to speak at this time of the very important part which the assistants have played in the history of the library. There have been many assistants and their faithful and conscientious work has been not only a support but an inspiration to the librarian. I would also speak of my gratitude to the assistants of today, Miss Wentworth, Miss Foss and Miss McCrillis whose cheerful co-operation in the work of the year has never failed.

To the trustees, also the librarian would once more express her appreciation of their consideration and kindness.

Respectfully submitted,

LILLIAN E. PARSHLEY,

December 31, 1918. *Librarian.*

# Report Superintendent of Schools

*To the School Board of Rochester:*

I submit herein my fourth annual report as superintendent of schools, for the year 1918, it being the twenty-seventh in the series of such reports. The report is brought down to February 13 of the present year.

## THE TEACHING FORCE

The following changes have occurred since my last report:

It will be noted that eighteen teachers, or forty-five per cent. of our present teaching force, have resigned during the year. This is certainly too many changes for the maintenance of a coherent and efficient body of workers. I called attention last year to the steady increase in the number of resignations; seven in 1914, eleven in 1915, twelve in 1916, and seventeen in 1917. The loss of eighteen in 1918 continues this vicious tendency, and warns us that a further increase will mean great harm to our school system. A study of the table of comparative salaries (Table B) will show the reason for this exodus of teachers, and the imperative necessity for the adoption of the schedule of increased salaries which you have recently decided upon. During the present school year, when the scarcity of teachers has become more and more marked, it has been impossible to attract condidates from abroad under our prevailing schedule of salaries, and positions becoming vacant have been filled only by finding persons in the community who were available. It is to be hoped that the advanced schedule, recently adopted, will put us upon a better footing.

## THE INFLUENZA

The work of the schools here, as everywhere, has been seriously interrupted by the epidemic of influenza. During the fall term the schools were closed for a week of Rochester Fair and for three weeks on account of the influenza. We shall be able to make up this lost time by shortening the mid-year vacations and continuing the summer term to June 27. In addition to this loss of time the schools have been broken up by the unusual prevalence of colds. Never, in my experience, have there been so many calls for substitute

teachers to take the places of those who were ill, nor so large a proportion of pupils out on account of illness as during the last few weeks. Besides the prevalent colds we have suffered from an outbreak of several cases of scarlet fever in the School Street school and of several cases of diphtheria in the Allen school. One of these resulted fatally, involving the sad loss to the fourth grade of Pauline Seavey, a much beloved pupil and school mate.

## EVENING SCHOOLS

The war has opened our eyes to the danger of an element in our citizenship which is shut off from the currents of public opinion by inability to understand the common tongue, and strenuous efforts are being made throughout the country to overcome this danger by the immediate instruction of all in the use of the English language. In New Hampshire the campaign for this purpose has been especially effective and successful. In response to the appeals of the Committee on Americanization that all communities containing non-English speaking people organize evening schools for their benefit your board immediately expressed itself favorable to such action. The fact that funds were not available, however, has caused the postponement until the present time of the plans made by the board. The school has finally been opened during this week. A class has been organized for those having little or no use of English, and another who have some knowledge of the language. Pupils in attendance are intelligent, alert and enthusiastic. They give undivided attention and immediate response to the instruction and already show progress. There is a demand for instruction in other subjects, but for the present we are

limiting the work to training in speaking, reading and writing English.

I hope that we have here the beginnings of great things. It has always been my belief that the evening schools ought to develop into real people's universities, in which a group of persons beyond the usual school age might receive instruction in any desired subject, and education instead of being finished and done with in youth should be continued and yield the most valuable returns in mature life. The influence upon the character of individuals and upon the higher life of a community by the successful conduct of such work can hardly be over-estimated.

## WAR WORK.

The war has made large demands upon the schools, and to all of these demands both teachers and pupils have responded with splendid patriotism. Almost every agency engaged in philanthropic work has endeavored to have the schools fully organized in behalf of its particular cause, and we have had constantly to resist the pressure for such organization and effort. We have chosen to co-operate in those undertakings which most completely harmonized with our educational aims, and have found that war work, as thus directed, reinforced rather than detracted from the regular work. For example, we try every year to stimulate the cultivation of home gardens. The request of the government that pupils help to win the war by producing food, and the organization of the United States School Garden Army, with enlistment, officers and badges, has given great impetus to the regular work in gardening. We had had in operation for some time a system of school savings. The urgent

demand that pupils invest in thrift stamps as a means of furnishing funds for winning the war reinforced our efforts to inculcate thrift, and was so useful to this end that the school savings system has been closed out as superfluous. So all study and discussion of the war and of questions connected with the war have given point and zest to the study of geography, history, and civics, and have been the starting point for much reading, discussion and writing.

Besides contributing, through their own efforts, to many war causes the children have been a useful means of communication between the government and the home, and have been of great help by delivering notices, circulars and information regarding food conservation and other governmental activities. Most people will be surprised at the total contributions made by the pupils in those activities whose results can be tabulated. Four hundred and twenty home garden plots were successfully cultivated, yielding returns carefully estimated as $2,984.77. The government is urging that the School Garden Army organization be continued another year, and already 655 pupils have enlisted as gardeners for 1919. The total investment in Thrift Stamp and War Saving Certificates to date is $11,697.00 and in Liberty Bonds $41,870. The totals pledged for United War Work by the Victory Boys and Girls is $1,432.49 and most of the pledges have already been made good. Besides these contributions much Red Cross work has been done by pupils and teachers, of which I have no account.

## MEDICAL INSPECTION.

At the city election in December the city voted in favor of installing a system of medical inspection in

the schools. The committee appointed by your board at the January meeting has prepared a plan for carrying out this mandate of the voters as soon as necessary funds are provided by the city council. From experience in the past with medical inspection in the schools I am led to believe that the co-operation of a school nurse immensely increases the effectiveness of the work. It is exceedingly desirable, also, that the inspection of pupils include a thorough dental examination.

## PROGRAM

We have made no change in the elementary studies, except to substitute French for Latin in the seventh and eighth grades. This change was made because of the increasing importance of the French language, and because the change put us more completely in line with the other school systems of the state. Pupils are attacking this subject with the same interest and enthusiasm shown for Latin in previous years. We try to approximate the direct method in teaching, and look for increasing effectiveness as teachers gain experience. Great credit is due the teachers, some of whom have spent a great amount of time in preparation for teaching this new subject.

In the high school program a third year has been added to the domestic arts course, and domestic arts is offered as an elective in the first two years of the commercial course. Botany has been substituted for physiology in freshman year, and the history of civilization takes the place of ancient history in all courses except the classical.

An unusual achievement which deserves special

mention is that of Felice Baril, who graduated from the high school last June. The school records show that she was not absent from school for a single session during her school course from first grade through high school.

Permit me to acknowledge the uniform courtesy and constant support which I have received from your body during the year.

Respectfully submitted,

CHARLES A. BRECK,

*Superintendent.*

In addition to these from the graduating class, Lillian Connell, '17, entered Wheaton, and the following entered college as members of the S. A. T. C.: Kenneth Brock, '15, Murray Collins, '15, Carleton Meader, '15, Henry Jacques, '16, Albert Leblond, '16, Carleton Wingate, ex-'17, Paul Osgood, ex-'18, Ernest Campbell,

'16, at New Hampshire; Raymond Pugsley, '17, at Bowdoin; Lawrence Faunce, '17, Arthur Nixon, '17, at Northeastern; and Spencer Baril, '15, at Boston University.

The total enrollment for the year is 253 divided as follows: 2 postgraduates, 43 seniors, 42 juniors, 61 sophomores, 104 freshmen, and 1 special. Of this number 22 have left school, leaving the present membership 230, as compared with a total enrollment of 252 and a present membership of 217 last year.

There are at present, in the school, only two of our nine assistant teachers who were here a year ago. While some of the new comers already rank as among our most efficient teachers, it is unnecessary to point out that no school can do its best work, as long as it loses from half to two-thirds of its staff each year. As the head of the commercial department, we have had 11 different teachers in the last five years, without counting the substitutes we have employed for a few weeks at a time. Such frequent changes disturb the morale of the school, put greater burdens on the teachers who remain, and materially injure the preparation of the pupils. May I urge once more that when a teacher is proven efficient, it is of vital importance to retain that teacher?

Rochester Fair week still remains an open question. My personal opinion, as often expressed, is that the schools should remain in session; and that if this policy could be consistently followed for a period of perhaps, five years, the results would show a marked gain over those at present obtained. However, it is evident that the sentiment of our city is in favor of closing during the week, so much so in fact that the

attempt to keep open has resulted merely in delaying the final decision. Accordingly, I would respectfully recommend that Rochester Fair week be placed as a regular vacation on the school calendar.

The Springfield scholarship was awarded to Miss Katharine Hartley of the class of 1918; but she found it inadvisable to attend college this year. Accordingly, the committee made the award to Miss Gladys Bickford, '16, at present a Junior in New Hampshire State College.

Gifts to the school this year, for which thanks are most heartily expressed, are the Dartmouth medal, the gift of Fred Allen Walker, and a bronze fac simile of the Declaration of Independence, the gift of Evelyn Tucker Mott of the class of 1909. The Dartmouth medal for excellence in scholarship was awarded to Pauline Corliss, '21. The class of 1918 used a large part of its funds to pay the debt of the Athletic Association.

Athletics and school socials have been almost entirely neglected during the year just past, owing to war conditions and to the fuel shortage. A base ball team was maintained and was very efficiently handled by Mr. Remick. No attempt was made at football owing to the influenza as well as to general conditions. Plans are now under way for a baseball team for this spring and the various classes are preparing to resume the plan of class socials from time to time through the year. Special effort is being made to secure a wider participation in these socials than we have had in the past. A very small percentage of our pupils care for dancing and the practice of having the social

hour after a class play given over to dancing has resulted in some half dozen couples really entering into the enjoyment while the others are content to be merely passive onlookers. We hope by organized games to provide some remedy for this condition.

The general spirit of the school has been commendable. I believe the war has brought a new sense of responsibility and of seriousness even to high school pupils. While I do not intend to claim that all our pupils are rapidly becoming students, I honestly believe that the vast majority are working more seriously than I have known them to be doing in the seven years I have been in Rochester. If the handicaps of lost time and of changes in the teaching force are overcome this year, I believe no small part of the credit should be given to the earnest endeavor of the pupils themselves.

For the future, I believe our prospect is excellent. We have passed through the period when high wages, high prices and unsettled conditions have combined to reduce the number of those who remain in school beyond the bare legal age at which they can begin work in a store or in a factory. From now on, it is reasonable to expect a growth of 10% to 20% in the school membership for the next two or three years. Such a normal growth can be accommodated with the present teaching force and in the rooms now occupied by the school, for a year or two more at least, unless changes in the courses offered call for further extension. Some changes will be found necessary. For instance, if French is to be taught in the seventh and eighth grades, the high school must open its French course to the entering classes rather than wait till sophomore year

as at present. Before long, I believe we shall find it advisable to offer Spanish as a second modern language in the place of German we abandoned three years ago. In general, however, I believe that our immediate efforts must be concentrated on our present courses without undertaking new lines of work.

In conclusion I would express my appreciation of the spirit of co-operation the high school has found in dealing with its problems.

Respectfully submitted,

GILMAN H. CAMPBELL,

*Headmaster.*

# Report Supervisor of Music

*To the Superintendent of Schools:*

DEAR SIR:—I take pleasure in answering your request for a brief report of the work done in music this year.

We have had many interruptions on account of sickness and this has delayed the work in a measure. However, we are working hard, and expect to make up most of the work.

At our graduation in June we gave another musical program of fifteen numbers, being work taken from our regular schoolroom music, and the children gave a good account of themselves.

At Christmas we also gave a program of ten numbers, the upper grades singing the old and new carols. This was also regular schoolroom work, and we hope this will be repeated in future years.

We have met with the same hearty response and co-operation from the teachers as in past years and the children show marked improvement in all branches of the work.

At the High School the chorus is doing as well as can be expected, with such limited time. We were giving an extra period to the boys' part of the work,

but had to discontinue this as the time was needed for their other studies.

We have introduced in all the schools a special period for community singing, taking the upper grades as a chorus. We have studied a great many of the old familiar songs. and taken a number of the best of the present day songs. This period meets with a ready response, and both teachers and children enjoy thoroughly this feature of the work.

At this writing, of the seventh year's report, we thank most sincerely all our old associates for their help, and welcome the new members with words of appreciation for their earnest endeavor.

Our supplies are much better than ever before, and in closing, we thank you, Mr. Breck, for your kind support.

Respectfully,

MOLLY C. DONOHOE
